Long live the remembrance of Great October Revolution.

Long live the U.S.S.R., the pioneer of peace and democracy.

Life and honour for Stalin the carrier of the flag of peace.

* * * * *

During this month, nations of the world with USSR at their head are celebrating the anniversary of the greatest revolution that the history of mankind has seen; the revolution of liberating the peasants and workers by removing the exploitation and persecution in 1/6th of the world; the revolution by which Lenin, Stalin, and the great Communist Party changed the history of the world by establishing Socialism which eliminated the famine and unemployment.

The revolution of October which buried the aggression of armed imperialism, awakened the underdeveloped, persecuted nations of Mid-Asia and Siberia, and increased their economic wealth in a way that bourgeois communities couldn't dream of. It was the most valuable experiment of the worker's class and was the liberation of nations towards the final progressive goal. The greatness of the October revolution is clearly seen from the persistent progress of Socialism, the unification of friendly liberated revolutionary nations; the victory of the Soviets over German-Italian-Japanese Fascism during the 2nd world war; the peace and rehabilitation projects for revolutionary people; the spreading and concentration of this revolution's goals by the establishment of revolutionary, national, democratic rule among Mid-East European people and the establishment of a democratic republic in Germany; the victory of the Chinese people; and from the revival of national movements to destroy plans of the Anglo-American warmongers.

This year was the 33rd anniversary of the October revolution, and was the most active one under the leadership of the Communist Party and Comrade Stalin. The Union of Soviet Socialist Republics is heading the struggle against Anglo-American war propagandists to defend the peace, democracy, and the rights of nations.

In London and Washington there are conferences for rearmament and organising imperialistic plans, while the Soviet Republics are continuously coordinating peace programs. In the capitalist, imperialistic world, armament budgets are being increased, famine and unemployment are becoming widespread among the majority of the people; while among revolutionary nations which are carrying out numerous peace projects, the comforts of life are being progressively increased. At the time when the Anglo-American block in the UNO is strictly against peace, the Soviet delegate affords peace resolutions to minimize armed forces and outlaw atomic weapons and propaganda designed to stir up the masses. At the same time when the "Wall Street Gangs are threatening to start a nuclear war, atomic and

hydrogen bombs, the Soviet Republics are exploiting atomic energy in reconstruction and peaceful projects to facilitate the construction of Communism. At the time when American Fascists and their servants are committing the most savage crime against the Korean people, the Soviets, under the leadership of Comrade Stalin, would attempt to help the Koreans establish a free democratic unified government, and would call for the withdrawal of American, imperialistic armies and solve Korean conflict in a peaceful manner. While Americans and Britishers are following an openly aggressive policy, the Soviet Republics proudly declare their peaceful policy; the policy of Stalin, which is directly aimed against the bloodshed imperialistic policy and designed to defend the peace and democracy of all the world.

It is now become clear that you are the imperialist criminals who try to stir up a war. You are the aggressors in Korea, Vietnam, China, Burma, and other places. You are reviving and strengthening Fascism, spreading war propaganda, preparing gross unjustifiable treaties, and persecute nations for your exploiting aims. But you should know certainly that your future is just like Hitler and his followers. The force of people is stronger than persecution and bombs. History has strictly given sentence for your death and you may find no way for escape. The strength of the October revolution is progressively going to increase, since it has sprung from the people and Stalin is its leader.

The people of Iraq are marking this anniversary and calling for the successful life of the USSR and Comrade Stalin, the holder of the peace flag and the leader of the international proletariat. They are calling against the Anglo-American warmongers; Iraqi high ranking officials; land owners; monopolists; to prepare an Iraqi free and independent democratic state. Undoubtedly our people are on the way to liberating Iraq from foreign imperialism and Nuri SA'ID's Fascism. Finally, they shall destroy the government of the criminal spy, (Nuri SA'ID.) *526*

Immortality for Lenin; life and honour for Stalin; long live Iraqi-Soviet friendship; death for warmongers and their servants.
